

For Immediate Release

August 20, 2013

We are pleased to announce that after a competitive review process, The P.B. Bell Companies is partnering with Notivus for their vendor compliance needs.

P.B. Bell was founded in 1976 when principal and CEO Philip Bell saw the opportunity to take a wealth of knowledge and experience gained within the fields of accounting and housing development to the state of Arizona. First arriving in Arizona in 1974 as a developer for Ramada Inns, Philip believed that there was a tangible demand to provide a breadth of different real estate services under one umbrella. Initially P.B. Bell's primary function was property management. As builders and investors became more astute to the necessity of handling day-to-day operations in a streamlined and profitable manner as well as the need to validate potential acquisition as strong investments, Philip began to grow the foundation for the company's existence. Starting the business in a one-room suite with nothing but a phone line and a vision, P.B. Bell quickly made an impact in the Arizona multi housing market. As revenues increased and opportunities became more prevalent, management and acquisitions became the launch pad for P.B. Bell's first development project completed in 1979.
